FUSION

CLUBHOUSE

From field houses to tree houses, from pristine studios to muddy fields, from urban courts to cul-de-sac playgrounds, our Clubhouse collection embodies the spirit of active kids everywhere, whether just hanging with their friends or playing with their teammates. Offering a full range of ages from toddlers to teens and with inclusive sizes available, these kids come alive with authentic and interactive poses designed to portray the #squadgoals that resonate with kids today.

At Fusion Specialties, we know mannequins are not just for display. They are a touch-point – a split-second opportunity to connect to consumers on an emotional level. And we are more than just mannequin makers. We are observers, listeners, creators of the moments to capture your customer's attention and personify your brand. We pay attention to the smallest details because it is there where the truth lives. It is about finding the details that feel familiar, relatable, and most importantly... authentic.

As truly custom mannequin makers, our unique design process allows each customer to bring their vision to life. Produced in our own factories, our mannequins are fabricated in E-Flex™, a proprietary, highly durable polyurethane with patented magnetic arm fittings for ease of use and longevity.

Fusion is part of The Noa Brands family. Noa Brands is the world's largest and most innovative producer of visual elements for the retail industry. As the leader, we offer the industry's most innovative and flexible services, and a customer-oriented culture, all with a global reach. Our brands are defined by excellence in service, product quality and logistics, all working on your behalf.
