## COMMUNITY

*A quick jaunt to the coffee shop. A hectic day at the office. A tough workout to sweat away the stress of the day. An oh-so happy hour with good friends. Who has time for all those costume changes throughout the day?*

*The Athleisure movement rose above trend status because really, it's about keeping up with today's lifestyle. Our Community collection captures the spirit of young people on the go, sporting the sportswear that allows them to move seamlessly throughout their busy days. And with inclusive sizing in both men's and women's, it speaks to the truth of the movement... it's not about your size, but about flaunting your individual style.*

*At Fusion Specialties, we know mannequins are not just for display. They are a touch-point – a split-second opportunity to connect to consumers on an emotional level. And we are more than just mannequin makers. We are observers, listeners, creators of the moments to capture your customers' attention and personify your brand. We pay attention to the smallest details because it is there where the truth lives. It is about finding the details that feel familiar, relatable, and most importantly... authentic.*

*As truly custom mannequin makers, our unique design process allows each customer to bring their vision to life. Produced in our own factories, our mannequins are fabricated in E-Flex™, a proprietary, highly durable polyurethane with patented magnetic arm fittings for ease of use and longevity.*

*Fusion is part of The Noa Brands family. Noa Brands is the world's largest and most innovative producer of visual elements for the retail industry. As the leader, we offer the industry's most innovative and flexible services, and a customer-oriented culture, all with a global reach. Our brands are defined by excellence in service, product quality and logistics, all working on your behalf.*
